# Anti-Bullying Policy

Sample document for demonstration only

Bullying is unwanted negative behaviour, verbal, psychological or physical, conducted by an individual or group against another person, and repeated over time. Our school does not tolerate bullying, including online bullying.

Pupils who are bullied, or who see bullying, should tell any teacher or SNA. Every report is taken seriously, recorded and followed up by the class teacher, with the principal informed. Parents of everyone involved are kept updated.

We teach children how to be good friends and how to speak up through the SPHE programme, assemblies and Safer Internet Day activities. This policy is reviewed each year.
